NOTE: Only Authenticated Users are allowed to enter. Therefore, Sign-in required while using the meeting ID or Link. Therefore, kindly use your symposium registered email id. (This is applicable for Step No 3 or Step No 4). If you use any other email id, you cannot directly enter to the virtual room for the presentation.

Zoom User Tips

1. When possible, connect to the Internet with a physical cable connection, not just Wi-Fi. This will give you much greater speed and service.
2. A laptop or desktop is preferred over a Smartphone or tablet. We strongly recommend you to join through the big screen (laptop/ desktop) for the better virtual event experience.
3. Don't have several programs running while using Zoom. Close all unnecessary applications during your call so all processing power can be used to maximize the quality of your Zoom session.
4. For better appearance, make sure you have a good source of light in front of you and behind the camera that you are using with your computer.
5. Avoid moving your head too much or "talking with your hands."
6. Mute your microphone whenever not using.
